Tome 357 (2019) – N° 5 – mai

Fenêtre, 1976, détail, Éric Hallberg ©, né en 1933.
Fenêtre, 1976, detail, Éric Hallberg ©, born in 1933.

Combinatoire/*Combinatorics*

- On (2, 3)-generation of Fischer's largest sporadic simple group Fi'_{24}
  Faryad Ali, Mohammed Ali Faya Ibrahim, Andrew Woldar 401

Théorie des nombres/*Number Theory*

- Somme translatée sur des suites primitives et la conjecture d'Erdös
  Ilias Laib, Abdellah Derbal, Rachid Mechik 413
- Parity of Schur's partition function
  Shi-Chao Chen 418

Algèbre/*Algebra*

- (*voir* tome 357, série I, 2019, p. 401)

Analyse mathématique/*Mathematical Analysis*

- A note on maximal commutators with rough kernels
  Yongming Wen, Weichao Guo, Huoxiong Wu, Guoping Zhao 424

Théorie du potentiel/*Potential Theory*

- (*voir* tome 357, série I, 2019, p. 443)

Analyse complexe/*Complex Analysis*

- Coefficient estimates and integral mean estimates for certain classes of analytic functions
  Md Firoz Ali, Allu Vasudevarao 436

Équations aux dérivées partielles/*Partial Differential Equations*

- On the structure of diffuse measures for parabolic capacities
  Tomasz Klimsiak, Andrzej Rozkosz 443

Analyse fonctionnelle/*Functional Analysis*

- Stochastic aspects of the unitary dual group
  Isabelle Baraquin 450

Continued on the next page

Géométrie algébrique/***Algebraic Geometry***

- Equivariant compactifications of vector groups with high index
  Baohua Fu, Pedro Montero 455
- Corrigendum to: "A density result for real hyperelliptic curves" [C. R. Acad. Sci. Paris, Ser. I 354 (12) (2016) 1219–1224]
  Brian Lawrence 462

Probabilités/***Probability Theory***

- (*voir* tome 357, série I, 2019, p. 450)
- Cramér-type moderate deviations for stationary sequences of bounded random variables
  Xiequan Fan 463

Statistique/***Statistics***

- Asymptotic normality of a robust kernel estimator of the regression function for functional ergodic data: Case of an unknown scale parameter
  Mohammed Kadi Attouch, Zoulikha Kaid, Hayat Louhab 478
