Preface

This volume contains papers on logic and foundations of mathematics, dedicated to Professor A. Heyting on the occasion of his 70th birthday. The collection appears simultaneously as volume 20 of “Compositio Mathematica” and as a separate volume under the title “Logic and Foundations of Mathematics. Papers dedicated to A. Heyting on the occasion of his 70th birthday”.

We are especially pleased with the fact that a substantial part of the collection is relevant to intuitionism, the main subject of Professor Heyting’s own scientific work.

We wish to express our sincere gratitude to all persons who contributed to the publication of this volume: to the authors for their contributions and speedy proof reading, and to the editorial board of “Compositio Mathematica” as well as to the publishers for their friendly and diligent co-operation and advice.
